Borba · Évora, Portugal

## PROFILE

Software engineer and Computer Engineering student at the Polytechnic Institute of Beja (IPBeja). I build full-stack web and mobile applications end to end — from data model to interface — with a focus on clean, maintainable code and products people genuinely enjoy using.

## SELECTED WORK

### 01 ScanBite 2026 · SaaS Platform

A subscription SaaS for restaurants — QR-code digital menus with multiple visual themes, analytics and Stripe billing, built on Next.js and Supabase.

Next.js

Supabase

Stripe

### 02 SCBorbense Website 2026 · Club Website

The official website for Sport Clube Borbense — fixtures, squad profiles, news and club history, managed through a custom admin panel backed by Notion.

Next.js

Notion API

TypeScript

### 03 World Cup Tracker 2026 · Progressive Web App

A PWA for tracking the 2026 World Cup sticker album — duplicate tracking, friend trading, and a drag-and-drop knockout bracket predictor.

PWA

## EXPERIENCE

### Digital Presence Manager — Sport Clube Borbense

I manage the club's full digital presence: the official website, social media and visual identity for the local football club.

## STACK
